

I am a colombian designer with 8+ years of experience based in Barcelona, specializing in visual identities, photography, data visualization, web design, editorial, and spatial design. My work includes collaborations with Fab Lab Barcelona, Fab City, and various EU projects. Passionate about transforming complex information into visually compelling formats. I embrace multidisciplinary collaboration, valuing the unique expertise each individual brings to the creative process.

Work Experience

2014 Three months

Internship in product development
at Pulso Design Studio

Research and development on Colombian artisanal construction techniques and their adaptation to the current design world.

2017 Six months

Internship at Bullilab x Elisava

Analysis and synthesizing information on the future of an outdoors creative space. Besides a research on open-air museography worldwide.
